

THURSDAY, JANUARY 22

Self-guided Farm Tour 9:00-4:30

In your own car, drive to three farms near Washington (about 90 minutes north of Atlantic Beach) to see hybrid striped bass, large-mouth bass, and catfish operations. Then finish the day with an afternoon tour of the Center for Marine Sciences and Technology (CMAST) in Morehead City (just ten minutes from our host hotel in Atlantic Beach).

FRIDAY, JANUARY 23

Presentations and Panel Discussions

- 8:00 Registration
- 8:45 Introduction and Welcome
- 9:00 National and North Carolina Updates
- 9:30 North Carolina Research Updates
- 10:45 North Carolina Industry Research
improving catfish fingerlings, clam research
- 11:30 Lunch
Keynote speaker: Rick Martin, Publisher, Fish Farming News
"Behind the Headlines: The Role of the Business Press in US Aquaculture"

or visit our homepage at www.ncaquaculture.org

Registration is limited to the first 300.
No refunds will be granted after 9 January 2004.

SOME OF THIS YEAR'S CONFERENCE SPEAKERS...

RICK MARTIN publishes *Fish Farming News*. He also is a director and officer of the National Aquaculture Association and is a past director of the US Aquaculture Suppliers Association. *Fish Farming News* is the only national aquaculture newspaper in the US. Martin, our keynote speaker, will take attendees behind the scenes, explaining how the news is gathered for each issue, what the mission of the business press is in the aquaculture industry, and how the press helps shape public perception of our industry.

BILL COX is the president of Island Fresh Seafood in Meggett, SC. Island Fresh Seafood began in 1990 producing farm raised shrimp, and in 1996, they expanded into clam and clam seed production. Bill has an undergraduate degree in Business from The College of Charleston. Before beginning Island Fresh Seafood, Bill gained extensive business knowledge working around the country.

BRENDA & TED DAVIS own White Rock Fish Farm in Craven County and have been raising hybrid striped bass since 1991. Prior to entering this aquaculture operation, Ted was "Operator Responsible in Charge" of all water discharge from the PCS Phosphate facility in Aurora, NC. Brenda brought her business experience from many years with Flanders Filters, Washington, NC. Earlier this year, they launched another business, "The Butchers Seafood Market." The Davis' have also been instrumental in the formation of the first fish farmers cooperative in NC, "The Fish Connection," which principally serves as a marketing and informational clearinghouse for its hybrid striped bass producer members.
